FLOODING AND VALUE AT RISK

**Global winner Banking**

**FLOODED AND VALUE AT RISK**

**BETTER PREDICTING MAJOR FLOODS AND IDENTIFYING PROPERTY RISKS ALLOWS BANKS TO EFFECTIVELY COVER LOSSES.**

In this first Pilot we have looked at the area of Örebro. From a high level down to detailed property level we can see the risk for a flood scenario occurring within 100 years, 200 years and 10000 years.
Winner Health, Americas & NLP; The Chart Chasers!
Using SAS Viya and Analytics to recover lost revenue for hospitals
