Setting Up Data for Practices

To complete the activities, demos, and practices in this course, you must **access SAS software and set up your practice files**.

Using the SAS Virtual Lab

The SAS Virtual Lab already has the course files loaded for you. All you have to do is launch the lab and start using SAS Studio.

Using SAS OnDemand for Academics

[Setup instructions for SAS OnDemand for Academics](#)

Using your own SAS software

Start your SAS software. Click **Open** next to the SAS software interface you have, and follow the instructions to set up your data.
