SAS Enablement Program

for FANS members

Ragnhild Skuland – Norway

Jesper Weber Dohn - Denmark

Marie Lienzén – Sweden

Currently

- SAS public training courses are by e-learning or live web (with instructor)
- An e-course is part of a bundle of courses at a price level – a “learning subscription”.
 - You have to buy the whole bundle which is at a very good price if you need several courses in that bundle.
 - Each bundle contains several courses at NOK 9250,- or NOK 18500,-
- But what if you need one or two courses only?

Welcome to the FANS Nordic SAS Learning Portal

The goal of the Learning Portal is to give you the best conditions for building and maintaining your SAS skills.

The Learning Portal consist of multiple learning tools:

- **Assessment Test** - tell us who you are, and we can tell you which training tools are relevant for you.
- **Learning Pathways** - showing which e-learning courses are relevant for a SAS product or a job-role.
- **Useful Links** - direct links to webpages for specific SAS products or knowledge.
- **Learning Plan** - create your individual plan for learning new SAS skills.
- **SAS E-learning course** - typically includes 7-21 hours of training with labs and 12 month access

You can find your courses by checking the Learning Pathway section below or by using the search functionality in "upper left corner".

You can purchase individual SAS e-learning courses directly in the Learning Portal. Each e-learning course has a price of 2.000 DKR, SKR, NKR or 300 Euro (FI).

Learning Pathways & Learning Plans in the portal

Courses

LEARNING PATHWAYS

Free Courses

- Data Literacy Essentials
- Data Literacy in Practice
- Generative AI Using SAS®
- Responsible Innovation and Trustworthy AI
- Transitioning SAS® Enterprise Guide® Projects to SAS® Studio Flows
- SAS® Programming 1: Essentials
- SAS® Programming for R Users
- Introduction to Statistical Concepts
- Statistics 1: Introduction to ANOVA, Regression, and Logistic Regression
- SAS® Viya® and Python Integration Fundamentals

[More free resources](#)

Basic Programming

Individual Recommended Courses

- SAS® Programming: Getting Started (free)
- SAS® Programming 1: Essentials (free)
- SAS® Programming 2: Data Manipulation Techniques

All related courses available (one bundle)

- SAS® Programming Learning Subscription (multiple courses)

Advanced Programming

Individual Recommended Courses

- SAS® SQL 1: Essentials
- SAS® Macro Language 1: Essentials
- Accelerating SAS® Code on the SAS® Viya® Platform

All related courses available (one bundle)

- SAS® Advanced Programming Professional Subscription (multiple courses)

SAS® Enterprise Guide®

Individual Recommended Courses

- SAS® Enterprise Guide®: Querying and Reporting
- SAS® Enterprise Guide®: Advanced Tasks and Querying
- Creating Reports and Graphs with SAS® Enterprise Guide®
- Transitioning SAS® Enterprise Guide® Projects to SAS® Studio Flows (free)

SAS® Visual Analytics

Individual Recommended Courses

- Explore and Visualize: Getting Started (free)
- SAS® Visual Analytics in SAS® Viya®: Basics
- SAS® Visual Analytics in SAS® Viya®: Advanced

All related courses available (one bundle)

- SAS® Visual Analytics Learning Subscription (multiple courses)

Data Engineering

Individual Recommended Courses

- SAS® Viya® Data Engineering: Getting Started (free)
- Building SAS® Studio Flows in SAS® Viya®
- Developing Custom Steps with SAS® Studio Analyst

All related courses available (one bundle)

SAS® Solutions

All related courses available (one bundle)

- SAS® Customer Intelligence Learning Subscription (multiple courses)
- SAS® Risk Management Learning Subscription (multiple courses)
- SAS® Fraud and Security Intelligence Learning Subscription (multiple courses)

Analytics & Machine Learning

Individual Recommended Courses

- SAS® Analytics: Getting Started (free)
- SAS® Visual Statistics in SAS® Viya®: Interactive Model Building
- Machine Learning Using SAS® Viya®

All related courses available (one bundle)

Administration

Individual Recommended Courses

- SAS® Viya® Administration: Getting Started
- SAS® Viya® Administration: Fast Track
- Getting Started with SAS® and Kubernetes

All related courses available (one bundle)

Create new learning plan

To create a new plan please add the plan title, a short description of the plan and a date by which the plan should be completed. You can click "Create plan" once you have entered this information.

There are required fields in this form marked *

▼ Plan details

Plan template: Learning Plan

Plan name*: Learning Plan for Ragnhild Skuland 2024

Plan description:

Date started*: September 3, 2024

Completion date*: July 12, 2024

Plan: Learning Plan for Ragnhild

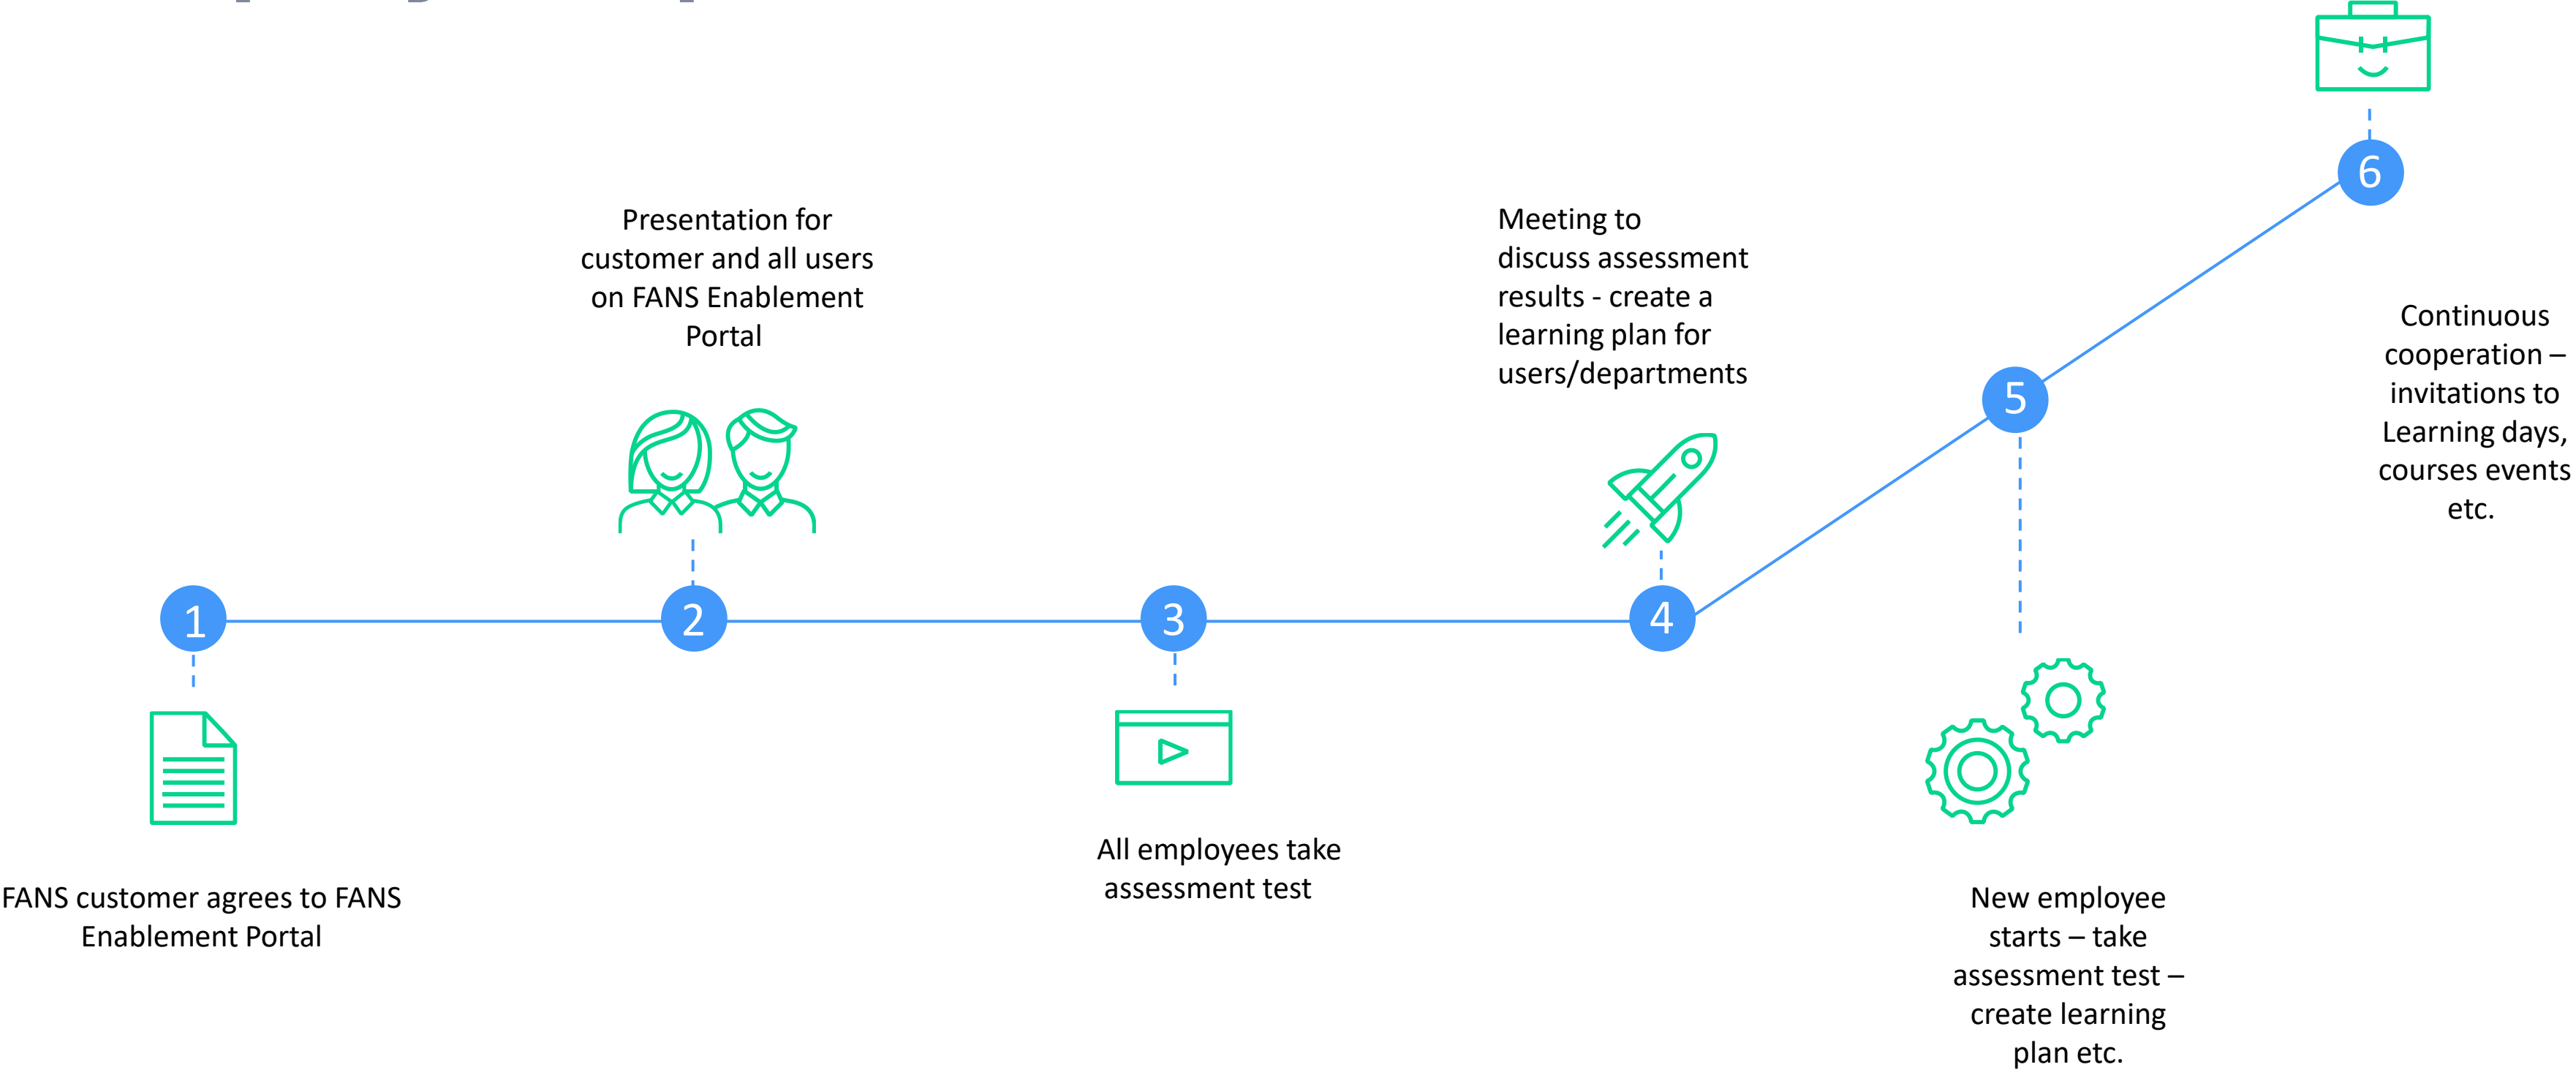

Overview Courses Programs

All the courses that form your learning plan are shown below. You can view any course by clicking the course title. Clicking "Add Courses" will allow you to add new courses to this learning plan.
