Report

Promote report to target (Kopier fra udvikling til produktion)

Delete report from source (Sletter rapporten i udvikling)

View report in SAS VA (Viser rapporten i SAS VA)

Preview report (viser rapporten som et lille billede)

The screenshot displays the SAS VA Promotion Tool interface. On the left is a navigation pane with a tree view of folders including 'SAS Content', 'Public', 'Products', 'Model Repositories', 'Projects', 'HR', 'BI', 'Pris', 'JR', 'JB', 'Alle', 'Alle_new', 'Alle', 'Ledelse', 'Økonomi', 'JF', 'JB_OLD', 'Users', 'Generelt', and 'Markedsrisiko'. The main area shows a table titled 'bbp_cars' with columns: Make, Model, Origin, Type, DriveTrain, MSRP, and Frequency. The table contains 30 rows of car data. On the right, a sidebar shows a 'Source' and 'Target' comparison table with columns 'Loaded', 'Found', and 'Loaded'. Below this is a 'Modified' table with columns 'Modified' and 'Modified By', showing a date of '2021 07:55' and a user 'JB7239'. At the bottom right, there are icons for report actions: copy, delete, view, and share.

Make	Model	Origin	Type	DriveTrain	MSRP	Frequency
Acura	NSX coupe 2dr manual S	Asia	Sports	Rear	89.765 \$	1

The resource was successfully promoted.

Tekniske afhængigheder:

- Udvikling og produktion SKAL være ens
- Systembrugere der må alt på deres miljø
- Rapporterne får den samme rapportID i udvikling og produktion
- ...der er nok flere men

Udfordringer:

- Overførsel af data giver ofte fejl
Virker når vi køre SAS koden i SAS Studio V, men ikke i den server context vi har oprettet til VaTool

VaTool som en standard applikation fra SAS Institute?
