SAS EXPLORER

Las Vegas 11-14 September

What is Cortex?

www.sas.com/cortex

- Online Analytics Simulation Game
- Each game includes case study, dataset, leaderboard, tutorials, SAS software and SAS Instructor time
- Available game scenarios:
 - Fundraising
 - Customer Retention
 - Credit Risk

Why play Cortex?

Connect remote employees

Advance machine learning skills

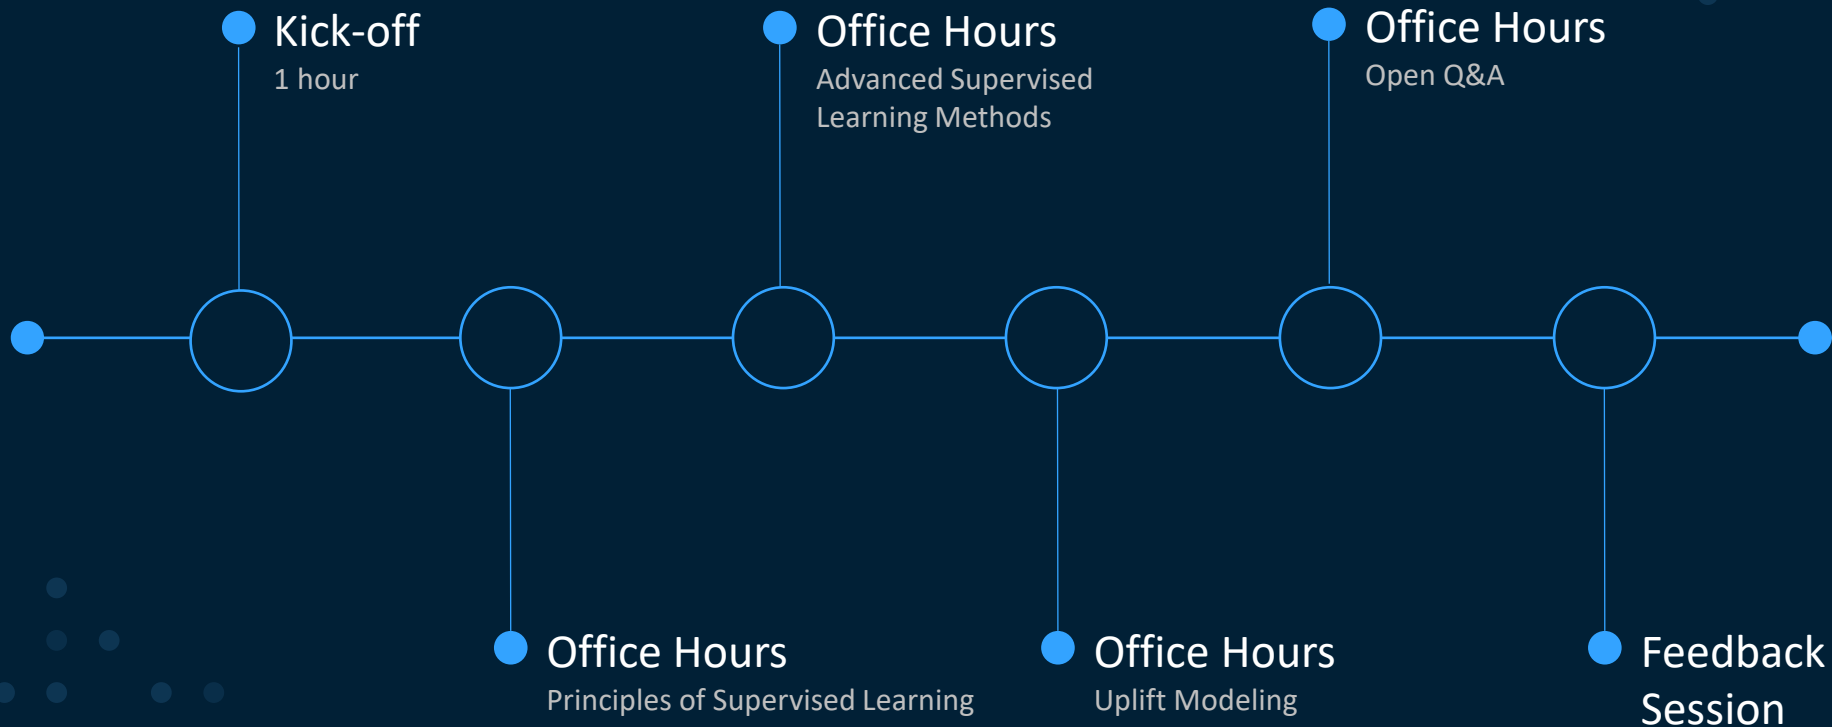

Flexible and digital education model

“ Cortex is an excellent way of getting people to use our analytics platform and fits altogether with our data democracy initiative. ”

- **Head of Analytics**
Telia (Finland)

Example Timeline

2-week game

Choose your SAS Journey

Personalised free expert knowledge.

Choose now

SAS can do things you never thought possible. Are you ready to find out how? Then you're ready to Choose Your SAS Journey.

Our experts have designed a set of knowledge journeys containing the best **SAS advice, techniques** and **best practices** for your specific needs. No jargon - just expert advice for curious minds. And always delivered in bite-sized chunks.

It's been structured in a series of **easy-to-follow steps**, taking you on a clear path to doing great things with SAS - delivered regularly to your inbox.

The Agile SAS Environment with DevOps

If your developers use SAS and you have a DevOps strategy, this journey is for you.

Learn how to automate your SAS code and data lifecycle with GIT, Jenkins and DevOps principles.

This journey is structured around the DevOps lifecycle and CI/CD principles:

- 1.Planning
- 2.Code development and management
- 3.Build with APIs
- 4.Test Automation
- 5.Release and artifact repository
- 6.Deployment
- 7.Release and monitoring

Also see, Become a Viya Admin Superhero.
