SAS Developer Portal 2.0

Modernization and relaunch of the SAS Dev Portal

[SAS for Developers | SAS](#)

<https://communities.sas.com/t5/SAS-Explore-Presentations/Developer-sas-com-2-0-The-Relaunch-of-the-SAS-Developer-Portal/ta-p/895721>

The SAS Developer Portal – What is it?

Facts and Decisions

A developer portal - often shortened to devportal - is the interface between a set of APIs, SDKs, or other interactive digital tools and their various stakeholders.

The current SAS devportal, `developer.sas.com` is written in AEM, with all other `.sas.com` web properties. AEM no longer meets our needs for the portal.

We created a team to build an automated devOps API pipeline and another team to build the new devportal.

This all provides internal and external developer benefits.

[SAS for Developers / SAS](#)

SAS Developer Portal Relaunch

The new developer portal contains many features, including:

Documentation

API and related use cases

open source integration

Programming

SDKs

Technologies and Solutions

Communities and GitHub

Support

SAS Developer Portal 2.0 – Future Features

- The initial release of the new SAS Developer Portal was released in Q1 2024.
- Features and functionality will continue in 2024.
- Future planned functionality includes:
 - ‘Try it’ – allow users to build sample API calls and receive responses
 - Additional REST API examples
 - Integrate additional SAS API documentation for additional products
 - Host and automate updates to SDKs
 - Add resources for other SAS-related technologies and solutions
 - Integrate with the SAS Hackathon
 - Add resources for generative artificial intelligence (GenAI)
