# Agenda

**14.00 - 14.10: Velkommen**

**14.10 - 14.40: Using SAS with Microsoft 365: A programming approach**  
*The presentation is held by Chris Hemedinger, SAS Institute. (in English)*

**14.50 - 15.20: Erfaringer fra bekjempelse av økonomisk kriminalitet**  
*Presentasjonen holdes av Inge Krogstad, SAS Institute.*

**15.30 - 16.10: SAS og Microsoft inngår strategisk samarbeid – hva betyr det i praksis?**

I sommer annonserte SAS og Microsoft at vi inngår et strategisk samarbeid - markedsmessig og teknologisk. Samarbeidet er knyttet til å styrke begge satsning på analyse i skyen på Microsoft Azure. Vi går her igjennom motivasjon og hva dette vil bety i praksis. SAS har lenge beveget seg målrettet mot skyen – dit data beveger seg, og støtter allerede alle de store offentlige skyleverandørene, Amazon, Google og Microsoft Azure med vår teknologi og løsninger. Med dette samarbeidet prioriteres Microsoft Azure og integrasjon med teknologi og løsninger fra Microsoft.

*Presentasjonen holdes av Lars Arne Skår, SAS Institute.*

**16.20 - 16.50: How to turn your Next best Options into a Model Factory**

Model factory is a framework that helps Customer intelligence and data science teams to go from a development model to a stable, reliable and auditable production model faster and with less guess work. The framework is created to take out the ad-hoc work of adding code/features to models and processes.

*The presentation is held by Nilma De Wit, SAS Institute. (in English)*

**16.50 - 17.00: Hva ønsker dere at skal bli presentert på neste nettverksmøte?**

# Første SAS Learning Conference 12.12.2017

“For Programmers and SAS Enterprise Guide Users”

Enjoy - Interact - Learn - Network - Have fun

Fra fornøyde og litt slitne deltagere:

- Fikk mye presentert på kort tid og på en effektiv måte
- Veldig bra at mange emner ble dekket, og at man kan velge hvilke emner man ønsker fra begge spor
- Dette var midt i blinken og aktuelt for flere av mine kollegaer

If you are interested in Reporting or Visualisation, this is the place to be!

## What you can expect

- SAS 9.4 and SAS Viya
- 1 day | 3 streams | 12 workshops
- Short sessions | Hot topics | Hands-on | Live interaction
- Tips | Tricks | Best Practices
- Interactive quizzes and challenges
- Presented by SAS experts
- Virtual get-together and fun!

## Topics include

- Check reporting capabilities with SAS Enterprise Guide 8.2
- Creating custom Microsoft Excel workbooks using the SAS Output Delivery System
- How to create dynamic reports and dashboards in SAS Visual Analytics 8.x
- Tips for designing better dashboards
- SAS Visual Analytics & Maps: a dream team
