The screenshot shows the SAS Output window. A table titled "The FREQ Procedure" is displayed. The table has columns for "Sex", "Frequency", "Percent", "Cumulative Frequency", and "Cumulative Percent". The data is as follows:

Sex	Frequency	Percent	Cumulative Frequency	Cumulative Percent
F	6	47.37	6	47.37
M	14	52.63	20	100.00

A red box highlights the "SEX" variable name in the left-hand pane, and a blue circle highlights the "Output" tab at the bottom of the window.
