

CODE

LOG

RESULTS

The image shows a screenshot of the SAS software interface. At the top, there are three tabs: 'CODE', 'LOG', and 'RESULTS'. Below the tabs is a toolbar with various icons for file operations (save, open, print), editing (undo, redo, cut, copy, paste), and execution (run, stop, refresh, zoom). The main area is a code editor with a line number column on the left. Line 4 contains the text 'RUN;'. Line 6 contains the text '*Histogram to see shape of bodyfat distrib', which is highlighted in light blue. Line 7 is empty.

```
.4 RUN;  
.5  
.6 *Histogram to see shape of bodyfat distrib  
.7
```
