

After I clicked 'RUN' I saw this:

The screenshot shows the SAS Studio interface. The left pane displays the 'Server Files and Folders' tree with 'Folder Shortcuts' and 'My Folders'. The main workspace shows the 'OUTPUT DATA' tab for a table named 'WORK.A'. The table has 16 rows and 2 columns: 'var1' and 'var2'. The 'var2' column contains missing values (represented by a period) for rows 2, 3, and 4, which are circled in red. Below the table is a 'Property Value' table.
